

The Amazing World of Ants

Today we had a UCLA workshop about ants. We found out that ants are social insects that work together as a colony. Then we collected ants for an experiment on their preferred diet.

Our experiment

Fill in this chart to show what color the ants turn. HINT: Look at their abdomen.

I	RED	GREEN

predict that the sugar water is _____ colored.

I predict that the plain water is _____ colored.

What else do you notice? (use the box to write down your ideas or draw pictures)

I notice that...
